Disarmament-Denuclearized Latin America

Revised Brazilian draft co-sponsored by Bolivia and Chile formally presented in first committee this morning. We are encouraging delegations from other countries to approach Brazilians and suggest delegation open paragraph one which reaffirms last year's denuclearized Africa resolution.

Certain of our allies have shown some concern with US support for Brazilian resolution. Representatives of *ab*

have all registered varying degrees of concern. We are emphasizing to them unique situation existing in LA and that our support for denuclearization there sets no pattern for our position in other regions. We would, for example, consider it out of question in present circumstances have resolutions denuclearization in Europe or Far East.
